

# Specialized Consultations for Children in EI

**Consultations** can be provided as additional expertise in a certain field. An Early Intervention Developmental Specialist (EIDS) would be the Primary Service Provider (PSP) who would then schedule a visit, at the home, at the center or in the community. This consultation can include handouts, ideas, and interventions/strategies to use with the child for any and all caregivers and possibly outside referrals when intensive direct services are needed. A consultation could be a one time event or may be scheduled intermittently as appropriate.

## **Areas of Consultation**

- ◇ Certified Infant Massage Instructor (CIMI)
- ◇ Occupational Therapist (OT, licensed)
- ◇ Physical Therapist (PT, licensed)
- ◇ P.L.A.Y. Project (certified in PLAY techniques)
- ◇ Specialized Supports (social-emotional challenges)
- ◇ Speech-Language Pathologist (SLP, licensed)
- ◇ Registered Nurse

## **Contact information:**
