

Employment Navigation

Lucas County
Board of

Developmental
Disabilities

inspiring possibilities creating connections

● **Employment Navigators** work with individuals ages 14 and then throughout life who are Board eligible on their path to employment. Employment Navigators can follow the individual through every step on this path.

● **How do we do this?**

- Works together with the individual's team to identify strengths, needs, interests, and preferences
- Identifying individualized short and long term goals related to community life and employment
- Collaborating with schools, providers, and other programs to develop skills needed for successful employment
- Working in collaboration with OOD to find and maintain employment
- Identifying barriers to successful employment and assisting with resources to overcome these barriers
