

Specialized Consultations for Children in EI

● **Consultations** Can be provided as additional expertise in a certain field. An Early Intervention Developmental Specialist (EIDS) would be the Primary Service Provider (PSP) who would then schedule a visit at the home, at the center, or in the community. This consultation can include handouts, ideas, and interventions/strategies to use with the child for any and all caregivers. It may also include outside referrals when intensive, direct services are needed. A consultation could be a one time event or may be scheduled intermittently as appropriate.

● **Areas of Consultation**

- Certified Infant Massage Instructor (CIMI)
- Occupational Therapist (OT, Licensed)
- Physical Therapist (PT, Licensed)
- The PLAY Project (Certified PLAY Consultants)
- Specialized Supports for Social-Emotional Challenges
- Speech-Language Pathologist (SLP, Licensed)
- Devereux Early Childhood Assessment Infant and Toddler Program (DECA)
- Newborn Behavioral Observations (NBO)

Discuss any possible consultation needs with your EIDS
